Recital FAQ's

Can we leave once our dancer is done dancing?

With the exception of the Monday 4:30 & 5:15 dancers, all students should remain for the duration of the show. This is for safety purposes.

How long will the show last?

Our Christmas Show lasts no longer than 1 hour and 45 minutes and our Spring Show is not longer than 2 hours and 30 minutes.

Can we take Photos and Videos?

We don't mind as long as you remain in your ticketed seat and there is no flash as it is distracting to the dancers.

How to we sign in and sign out our dancer?

When you arrive to the backstage area, there will be a sign in table. This is where you will sign your child in so that we know they are in the dressing room and ready to dance. At the end of the show you will also sign them out at this same table so we know they have been safely returned to their family.

When should we arrive for the show?

You should arrive with your dancer about 45 to 30 minutes before show time.

How many tickets can we purchase?

Families can purchase as many tickets to the show as they need. You must buy separate tickets to each show if you want to sit in the auditorium and watch.

What is the price for tickets?

Christmas Show tickets are \$12 per person ages 2 and up. Spring Recital tickets are \$18 per person ages 2 and up.

If Dress Rehearsal mandatory?

Yes, dress rehearsal is mandatory as it is what prepares your dancer for the show. It helps them to understand the spacing of the stage, the lighting, sound and if their accessory is to fall off, it will help them to better prepare before the real deal.

How should my child arrive to the show?

Dancer's should arrive with their hair and makeup already done. They should be dressed in comfy clothes with their dance tights already on. Once they get backstage they should get right into their first dance costume and then remain backstage. This is so that people in the audience can't see the costumes until they hit the stage.

Do dancers need a ticket?

Dancers grades 2nd and below can join their family after ALL of their routines are done. They will be given a student ticket. Dancers in grades 3rd and up do not need a ticket as they are required to remain backstage during the duration of the show.

Who will be watching my dancer during the show?

Dancers will be closely watched and helped by our studio staff and the mom volunteers.

What does a show volunteer do?

Those who volunteer to help backstage will be assigned to a certain class group. This could be your child's group or another group. You are in charge of watching them during the duration of the show. When it is their time to go on stage, you will drop them off at the line up area and can then go sit in the volunteer seating in the auditorium. Once their dance routine is done you will then go and collect them backstage and help them get ready for their next number. Volunteers will remain backstage during the duration of the show.

Is there anything I should send with my child?

A water bottle and a healthy light snack could be sent with your dancer. Nothing they could spill on their costume!

Is there anything not allowed in the auditorium?

Cell phones must be silenced or shut off during the show. Not food or drink other than water is permitted into the theatre. There is no smoking indoors, including vaping and audience members should only move about when it is in between numbers.
